Linkedin | **Github** | **Porfolio**

Backend Developer with hands-on experience in building modern web applications using Node.js, php and Go. Proficient in developing RESTful APIs, creating responsive and user-friendly interfaces, and managing databases effectively. I am known as a collaborative team player with a strong passion for delivering innovative and scalable tech solutions. Always eager to learn new technologies and improve code quality through best practices.

SKILLS

Technical Skills: JavaScript, Go, PHP, PostgreSQL, MongoDB, Redis, HTML, CSS, React.js, Express.js, Tailwind CSS, Bootstrap CSS, Git, NPM, Docker.

Soft Skills: Teamwork, Organization, Collaboration, Creativity, Curiosity.

EXPERIENCE

PERDAMI WEST SUMATERA   Jan 2023 – Aug 2023

Web Developer

- Developed and maintained the official SOM15th event website, implementing responsive layout and registration functionality for hundreds of participants.
- Streamlined the registration process by developing an online system that minimized manual processing.
- Provided both on-site and remote technical support during the event, ensuring smooth operations and optimizing participant experience.

ESENSI SOLUSI BUANA   Jul 2025 - Now

Backend Developer

- **Enhanced ticketing system by replacing the free-text "Issue" field with a standardized input method.**
- Addressed issue categorization inconsistencies that caused misinterpretation among assignees and consultants.
- Developed and integrated backend logic using PHP (Yii2) and MySQL to support predefined issue categories.
- Improved accuracy in ticket classification and streamlined management-level ticket tracking.

PROJECT

KODA KOFI APP - KODA

Technologies: React.js, Tailwind CSS, Go, PostgreSQL, Docker

- Developed Koda Kofi, a web-based application for ordering coffee and desserts using Go for the backend and React.js for the frontend.
- Crafted a clean and responsive UI with Tailwind CSS to enhance the customer experience.
- Utilized PostgreSQL for managing and querying relational data efficiently.
- Employed Docker to containerize the full application stack, enabling streamlined deployment and environment consistency.

TICKITZ MOVIE APP - KODA

Technologies: React.js, Tailwind CSS, Go, PostgreSQL, Docker
- **Built a movie ticket booking platform with Go backend and React frontend.**
- **Containerized application with Docker for deployment consistency.**
- **Implemented user authentication, movie listings, showtime schedules, seat booking, and admin panel functionalities.**

SOM15TH EVENT WEB – PERDAMI SUMBAR

Technologies: React.js, Bootstrap
- **Developed an official event website for SOM15th using React.js and Bootstrap, focusing on responsive design.**
- **Integrated features such as online participant registration, dynamic schedule display, and event information pages.**
- **Optimized user experience across multiple devices with responsive layouts and modern UI components.**

EDUCATION

KODA TECH ACADEMY - *FULL STACK WEBSITE GO BOOTCAMP*   **Feb 2025 - Apr 2025**
- **Focused on mastering full stack web development, including algorithms and data structures.**
- **Built projects using React.js, Go, Node.js, and PostgreSQL.**
- **Applied containerization with Docker and adopted industry-standard development practices.**
- **Gained in-depth understanding of Go and implemented RESTful APIs using the Gin web framework.**

UPI "YPTK" PADANG – *INFORMATICS MANAGEMENT*| **Diploma - III**   **Aug 2018 - May 2022**
GPA: 3.35
- **Completed projects on web development, backend development (PHP, Java, C++, .NET, CodeIgniter, MySQL).**
- **Developed responsive websites and applied basic UI/UX principles.**
- **Designed a web-based academic information system with CRUD operations and database management for a final project.**
- **Actively participated in team-based assignments, improving collaboration and project planning skills.**
- **Gained foundational knowledge in networking, database systems, and software engineering.**

HONOR AND AWARD

- **PostgreSQL Bootcamp : Go From Beginner to Advanced by Adnan Waheed – Udemy Feb 2025.**
- **Learn backend for beginners with javascript by dicoding December 2024.**
- **Learn basic programming with javascript by dicoding Decemeber 2024.**
- **Learn the basics of artificial intelligence by dicoding December 2024.**
- **The Complete Full-Stack Web Development Bootcamp by Dr. Angela Yu – Udemy May 2024.**
- **React – The Complete Guide 2024 (Include Next.Js, Redux) by Maxmilian Schwarzmuller – Udemy June 2024.**
- **Committee on Sumatera Ophthalmologist Meeting 15th by PERDAMI March 2023.**
